

Get your Aetna payments up to 7 days faster with Electronic Funds Transfer!

Aetna knows you may be concerned about receiving prompt payments for services delivered by your clients. That's why EFT, a time-tested electronic solution, is the answer for your clients. Instead of sending paper checks, Aetna will send payments via Electronic Funds Transfer (EFT), a secure capability that allows your clients to:

- Get claims payments transmitted directly to a designated bank account(s) up to one week faster than with paper checks.
- Reduce mail coming to your office, handling time by your staff, and eliminate the need for trips to the bank. Not only does EFT save time, it also helps you manage your business more effectively with a convenient audit trail.
- Do your clients not want to give you access to their bank account(s)? Access to their account(s) isn't necessary, as you can easily verify payments by matching them to submitted claims on an ERA or electronic EOB from our secure provider website.
- Are your clients worried about claims recoveries? We will only recover duplicate payments or funds intended for someone else. Your clients can read about this in the Authorization Agreement on page 2 of the enrollment form.

Ready to enroll your clients with EFT?

Go to www.AetnaEFT.com. Print out the enrollment form, and fax your completed form and account documentation to our secure enrollment desk at the number shown on the form. Or, give this web address to your clients, and ask them to send in the signed forms and documentation to us. We will process the forms quickly, and get your clients up and running on EFT in no time.

Need to enroll for our free, secure provider website? Click [here](#) to enroll for NaviNet. **Enroll as a billing company, and you will be able to access information for all of your clients enrolled with NaviNet with just a single user name and password!** Once enrolled in NaviNet, you or your clients can even enroll in e-mail notification. We will e-mail you when we're transmitting a new payment or post a new EOB!
