

Technology Committee
April 24, 2009

Present: Bill Carns
Joe Schendel
Curt Cvikota
Brad Lund
Michelle Botana

Absent: Patrick Lukacs

Agenda.

1. Policies and Procedures

Bill gave a brief update as to where PracticeMax is with the demo of Power DMS. The main concern now is when PracticeMax goes live with the product will they have to input all the data again or will Power DMS be able to 'flick a switch' and make it live. They are also addressing some security issues that may happen when the product goes live.

Action: Bill is attending a conference call with Power DMS to address these concerns which he will then report back at the next call. Anyone who wishes to attend the call may do so.
