Agenda:

1. Educational Changes in National Conferences

Discussion was held regarding how to incorporate the committee meetings in the Spring Conference without making any big changes to the Education Committees schedule.

- Additional break out or concurrent sessions would allow us to fit it in to the current schedule. This may cause concerns for committee members involved as they would not be able to attend a different break out session.
- Adding a half day to the program would allow committee members to attend their meeting as well as all other educational sessions provided.

The committee decided to allow the Education Committee to propose when they would like to see this fit into the schedule that is already set.
