

INNOVATION COMMITTEE CHARTER 2024

MISSION STATEMENT

Create strategic value to our constituency through the identification and communication of emerging innovation trends, functional and operational product platforms utilizing innovations and process automation to enhance efficiency and productivity.

COMMITTEE PURPOSE

The purpose of the Innovation Committee is to proactively identify the key drivers of change that impact the RCM industry in both the short and long term. By understanding these drivers, we can effectively address the challenges faced by our members. Moreover, this committee will serve as an advocacy group, empowering our members by consolidating new programs and subject matter experts under the umbrella of HBMA.

COMMITTEE VALUES

One of the components contributing to the success of a committee is the diverse dynamics that can exist within the group. The group will likely be comprised of different personalities, experiences, and opinions. Each committee member agrees to respect the participation of all other committee members and recognize the diverse dynamics that may be present within the group. The committee will operate by consensus.

Each member of the committee is encouraged to participate fully in the generation of ideas, topic discussions, sharing of ideas, and committee work assignments regarding the goals of the committee.
